The appropriate extension fee under 37 CFR 1.17(a) is calculated from: (1) the expiration date of the shortened statutory period for reply originally set in the final Office action; or (2) as set forth in (b) above, if checked. Any reply received by the Office later than three months after the mailing date of the final rejection, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).</p>

 DAVID J. ISABELLA Primary Examiner Art Unit: 3738			

Continuation of 11. does NOT place the application in condition for allowance because: The rejection was a proper final, since the scope of claim 1 was changed. Examiner is allowed to provide motivation as dictated by the scope of the claims. The claims stand rejected as being unpatentable over Shea in view of Antonelli. To fabricate the handle of Shea of titanium in place of the traditional stainless steel would have been obvious from Antonelli as titanium offers many known benefits over stainless steel. With respect to claim 27, the device of Shea prior to the weld (intermediate product) meets the limitations of this claim. With respect to claim 28, the ends of the handle do not pass each other within the bucket.. With respect of Muller, the slotted wall of Muller would function to expand upon insertion of an enlarged portion and returning to a smaller diameter corresponding to the diameter of the shaft or the initial diameter of the bucket. Rejection to claim 46 has been removed..
